Boyd Wessel, two young men who have a large acquaintance in business and social circles, and are connected with the best families in Cincinnati. All evidence so far obtained points to a case of accidental death or suicide. The woman was lying on her side, with her head under the water, when found. The body and water were still warm. In the afternoon a bruised spot showed itself on the forehead of the dead woman, which may or may not have been the result of a blow sustained shortly before death. None of the other occupants of the flat was awake at the time of the woman's death. She had been the first of the quartet to awake, and had gone alone to the bathroom. Coroner Haer was notified promptly, and the case, owing to several unexplained points, is now being investigated by himself and the police.

CLUMSYBY'S LACK OF TACT.

He Had a Philosophic Method of Turning This Lack to His Own Account.

"One of the things that have been most helpful to me in the course of my life," said Mr. Clumsy, "has been my lack of tact. This may seem like a contradiction, but it is really very simple. I have always fancied that I could attend to business for other people all right, but I never had any tact about my own; that is, about my personal relations with people. I always blundered whenever I attempted to do anything. Thus, if I have a misunderstanding or difference with anybody, I don't try to straighten it out. I can't possibly do it except in one way: I have to go to it flat-footed. I haven't any more diplomacy than a stone image. And, moreover, besides being clumsy about it, I am pretty sure to say too much, to say things that it isn't necessary to say. In other words, I don't know a tact at all."

War Matters.

Sickness, starvation and business at a standstill owing to the uncertainty of the future, characterize the situation at Havana.

The Third Kentucky gave a burgo and barbeque, beef and mutton feast to the One Hundred and Sixty Indiana at Lexington last Thursday. It was a great success.

The exodus of soldiers from the Fayette county, Ky., camps for the South takes place this week.

Three regiments of U. S. troops were ordered Thursday to embark for Cuba, to occupy Nuevitas and Puerto Principe. These are the first troops ordered to the island outside of those in the Santiago district.

The U. S. Peace Commissioners informed the Spanish Oct. 31st that they must give up the whole group of Philippine Islands, but the United States would make a money compensation. The Porto Rico and Cuban questions had been provisionally settled. Nov. 4th the Spanish Commissioners flatly refused to accede to the proposition to give up the Philippines for a reimbursement to the amount of Spain's pacific expenditures in the islands.

The troops officially chosen to occupy Cuba are the First Army Corps, commanded by Gen. James H. Wilson; the Second, by Gen. Young, and the Seventh, by Gen. Fitzhugh Lee. Gen. Lee will occupy Havana.

The smallpox is working havoc in the Holguin district, Cuba, and yellow fever is spreading at an alarming rate at Havana.

Gov. BRADLEY'S Thanksgiving proclamation is the shortest on record and is a model.

Envelop Trust got gay and advanced the price of envelopes 25 per cent. last week.

THE War Investigating Commission is lately receiving much evidence showing bad management of camps, armies and transports.

It is singular that the Capitol at Washington should be blown up by gas during vacation, after withstanding Congress' gaseous explosions for so many years.

The election day news from North Carolina is expected to be of a sanguinary character. The devil was to pay and the pitch plentiful and hot for the occasion.

The torpedo-boat contractors are not expediting the usual good luck of American builders of warships. The Davis and the Farragut broke down recently on their trial trips.

GEK. FITZHUGH LEE's mother died at Richmond, Va., last week. His wife is seriously ill also, on account of which he may not be able to take command of one of the armies of Cuban occupation.

JOHN WANAMAKER, of Philadelphia, has a big bet set on hand that he would like to put on the bargain counter. It is of political goods and he would probably guarantee a fit and a convulsion.

AFTER experience at Havana in the employment of Cubans some American officials say one American laborer is worth five Cubans. That sort of people may make a successful nation out of Cuba, but it is doubtful.

HON. CHAS. O'NEILL, formerly of Paris, Ky., ex-Speaker of the Kentucky House of Representatives, shot himself dead at Omaha, Neb., where he had been practicing law for some twelve years. He was a popular man.

A STORY comes from Louisville to the effect that Mrs. Cuthbert Bullitt, who was Miss Marie Goodloe before marriage, then became in turn Mrs. Shreve, Mrs. Ransom and Mrs. Bullitt, has revealed herself after many years on her first love, the Baron von Norde, of Berlin, to whom she was engaged, but whose family broke off the match. He came to Louisville recently, proposed marriage to Mrs. Bullitt and was rejected. He has learned to "behave of widowers."

ERNEST T. HOGLEY, the bankrupt millionaire promoter of London, is making disclosures on the witness stand showing a venality in London journalism and other business, and in the highest social circles that is as rotten as the worst any country can show.

THE Court of Appeals has again reversed one of its former decisions. In an opinion on a case taken up from the Montgomery Circuit Court it decided that a majority of two-thirds of those voting on an issue of county bonds carried the question.

THE first class armored Spanish cruiser Marie Teresa, which Lieut. Hobson raised at Santiago, was lost in a storm while being brought to Norfolk, Va., last week. Nothing short of a dry land making submarine upheaval will ever bring the Maria Teresa to daylight again.

BIGHAM H. ROBERTS, a Mormon Democratic Congressional nominee in Utah, was charged with having two wives, each of whom recently gave birth to twin babies. Roberts insisted that the issue was 15 to 1 and not 2 to 1. The matter of wives to a husband or babies at a birth.

NOTWITHSTANDING France has knuckled under on the Fashoda dispute, Great Britain continues war preparations on a greater scale than since the first Napoleon's time. It looks like she is going to challenge her enemies all along the line and bring to a focus long-standing contentions with both France and Russia.

OUR new brethren the Porto Ricans are conceded to be experts in the tricks of trade. The American that plays the game with them is advised to first practice on, and best the Jews, then on the Scotch, and then play a draw game with the Armenians, before he is competent to enter against the Porto Ricans.

EMPHATIC advice comes from both Hawaii and Porto Rico to the people of the States desiring a good business opening to stay away. The U. S. acquisitions under old-time expansion only needed an influx of American people to become thriving territories. That shows there are different sorts of expansion. The prevailing sort seems to be annexing vast future expense and trouble.

THE Cubans of the laboring class at Santiago will scarcely accept work at mining, yet they strenuously object because the mining companies have employed Spanish soldiers, who are better workers than the Cubans. Unless they are being willfully lied by the correspondents the native Cubans and Porto Ricans of the lower classes are about as trifling a lot as can be found.

TEXAS has adopted a queer law permitting the pensioning of ex-Confederate soldiers. It is in the form of an amendment to the State constitution and is applicable to the ex-Confederates residing in the State prior to 1880. As there are about 48,000 ex-Confederates who have become citizens of Texas since 1880 it operates to permit them to be taxed, without deriving any benefit from it, for the benefit of other ex-Confederates. Therefore a majority of the ex-Confederates voted against it, as did the negroes, yet it carried.

THE canal had struck the nations bad of late. Russia is about to build a ship canal from the Baltic to the Black Sea, utilizing rivers at each end so that only about 150 miles of actual canal digging will be necessary. It is expected to effect a revolution in the naval status of European nations and besides to give such cheap transportation for the grain, petroleum and other great products of Russia that the United States' similar products will scarcely be able to compete with them in European markets. The President McKinley is going to urge on Congress the building of the Nicaraguan canal.

"South Side" in an article very truly said that the law as enacted of late was to try petty offenses and dismiss the greater. You can

attack petty larceny and fill the penitentiaries and jails with less wretches who to avoid a situation have pilfered pantries or pig styes and you are apologetic as a benefactor. But dare to expose the crimes of the lofty and show where the rich thief adds to his millions by thievery of other millions and you become at once a reckless disturber of the peace. But the people are beginning to learn, as is shown in our near election. The people are not so zealous as heretofore to play the blind horse on the tramp mill, continually walking and getting nowhere. The hewers of wood and the drawers of water on both sides have been comparing books and have got to asking important questions of one side and the other; questions that would not be tolerated by the great leaders; would be considered from their exalted standpoint hereby, abandonment of the faith, disloyalty to party and party credit, but with all of these drawbacks the honest, conscientious man in both the old parties is asking his friend or neighbor: "How has it been in your party?" The answer readily comes back: "The only difference is pie and plunder."

A NOBLE AND AGED MAN at REST.—At 9:25 o'clock Friday night, Nov. 4, 1898, Grandfather Newman was summoned over the silent river.

Jas. Newman, who was, indeed, a noble man and friend to all humanity whom he came in contact with, was born July 28, 1811, thus being in his 88th year. He leaves three children, all of this town—two sons and one daughter—S. R. Newman, J. M. Newman and Mrs. Isaac Eden. He had lived with his daughter for a few months, but over 3 weeks previous to his death had come to his son's home, S. R. Newman's, where his last days were spent. He has one aged sister—Mrs. Wesley Caywood—in Colorado.

Grandfather had been almost blind for about 10 years, but about six months ago lost his sight entirely. His health began failing him rapidly a few weeks ago, but through all his blindness and suffering he was very patient, and when he knew what was best at all times asked him to join them "over there" we could but submit to his divine will, although we deeply mourn his loss. "A place is vacant in our home which never can be filled." Those who knew his biography best, those who once knew him on earth but have preceded him to the bright beyond now know him again and have, amid heavenly shouts, welcomed him to his new home.

His remains were followed and witnessed by a large concourse of people at Eden's Chapel, where his funeral was preached by Rev. Gardner. His body now lies at rest in Grandmother's there at the old Chapel burying ground. We extend our heartfelt thanks to those who stood by us during the illness and death of Grandfather Newman, also to those who ministered to him during his illness.
